ALUMILITE: a milestone in the history of porcelain

With its special recipe and name, Alumilite (aluminated porcelain) is a product that combines the most popular and preferred features of different types of porcelain. This unique product, which offers the surface resistance and mechanical strength of hard porcelain and the desirable creamy color of soft porcelain, has been designed to meet the demands of both domestic and foodservice environments. Porland's proprietary recipe and production methods ensure that our Alumilite porcelain products retain their beauty and structural integrity through the test of time.

DOVE

With its creamy white colour, durability and broad range of tableware, Dove is the essential restaurant and catering collection.

Seasons

The Wabi Sabi effect is central to the Seasons Collection, embracing simplicity and beauty in natural imperfection that can be earned only through elapsed time. This 'perfection of imperfection' is achieved through the use of reactive glazes and edge patterns applied by hand to each individual piece, making every Seasons dinnerware item singular and unique.

SEASONS / BLACK

The moment your guest encounters Seasons Black at the table, they will be left with impressions of strength and dignity, along with the stunning yet simple backdrop to the chef's creations.

Re-Gen

A Fascinating Transformation of Broken Pieces: Re-Gen by Porland
Our Re-Gen series comes to life through the recycling of porcelain shards that would otherwise be lost as waste. Since 2005, to more fully offset our carbon footprint, this step towards recycling production fallout has taken another successful leap forward in 2022, resulting in a line of 100% recycled product. Tons of broken pieces of kilned porcelain, misfits and non-standard choices are being recycled back into the production process to become true Porland Re-Gen products.

All measurements are in approximate values.

ONTARIO

Inspired by the deep blue waters surrounding the beautiful Canadian province of Ontario, this collection offers the magnifying effect of blue in every shade. Utilizing state-of-the-art technologies and targeting minimized carbon emissions this special Porland Re-gen series is perfect for enhancing beautiful tablescapes with the added joy of sustainability.

BIRDSONG

With cues taken from the harmony of birds in nature, the Birdsong Collection uses tones of blue and white to create a naturally calming effect. Leaf, flower and bird motifs adorn the collection and bring home the serenity and joy of birdsong. Manufactured using our proprietary industry-first recycling technique, the collection affirms the importance of sustainability and natural preservation.

Stoneware

More than Stoneware:

Porland proudly introduces our new stoneware line featuring many properties typically found only in quality porcelain. Completely lead and cadmium-free Porland Stoneware provides high mechanical strength and surface scratch resistance. Offering “0” percent water absorption, Porland Stoneware is built to withstand the rigours of the most hard-working foodservice environments. Presented in beautiful collections featuring unique designs, charming colours and mesmerizing glazes, the best of your kitchen will be reflected with pride on Porland Stoneware.
